
FOR IMMEDIATE RELEASE**Brandon Mize joins Lindsey Architecture as architectural technician**

Greensboro, NC (July 5, 2023) – Brandon Mize recently joined Lindsey Architecture as the newest architectural technician. He will support the architectural team, executing aviation, higher education, government, and commercial projects across the southeast. This brings Lindsey Architecture's FTE count to nine.

Brandon has three years of professional experience in the A/E/C industry. Previously, he worked as a CAD Technician for Alliance Architecture of the Triad and Survey Carolina, PLLC. He has a passion for everything design and construction, writing, weightlifting, and is a self-professed movie buff. In his spare time, he can be found traveling the state to comic conventions.

He is currently completing a degree in Architectural Technology from Forsyth Technical Community College and holds an Autodesk Certification from Guilford Technical Community College. Previously, he also studied project management at Forsyth Tech.

"We are excited to have Brandon on our team," stated Emily Hinton, AIA, principal of Lindsey Architecture. "His passion for everything design and construction, as well as his technical skills, will be a huge asset to our clients and their communities."

Currently, Lindsey Architecture has several other open positions, including project architect, interior designer, and director of interior design to support their growing client base and recently awarded projects.

About Lindsey Architecture

Lindsey Architecture is an award-winning, full-service architectural, planning, and interior design firm based in Greensboro, North Carolina, focused on making a positive impact across the southeastern United States. Founded on the premise that a dedication to creative excellence,

imagination and innovation, tempered with common sense, professionalism and financial stewardship, results in built environments that foster quality of life and work for its clients, Lindsey Architecture ensures successful outcomes through collaboration and thoughtful understanding of each client's vision and objectives. With a long track of creating spaces that achieve far more than simple function, they design places for people to achieve, succeed, and enjoy life through sustainable, integrated solutions across a broad range of focus areas, including industrial, education, workplace, municipal, parks and recreation, cultural and civic, and more.
