

HISTORIC SHEVELL BLDG

The Shevell Building is a three-story, 15,000 SF historic preservation project located at the corner of Elm and Lewis Streets. Originally constructed for the Shevell Furniture Company in 1898, the building housed the company's offices and retail areas on the first floor and furniture production on the second and third floors. We collaborated with the owner/developer to convert the vacant space into offices and retail facilities as part of the ongoing redevelopment of the south end of downtown Greensboro. The goal was preservation and modernization, working within the Dept. of Interior National Park Service's Guidelines for Historical Preservation, which was challenging and rewarding.

GREENSBORO ROTARY CAROUSEL

Lindsey Architecture led the design team for the Greensboro Rotary Club's Carousel House. Design services for an adjacent plaza and donor wall were added to the scope and completed in a design-build scenario to allow completion at the same time as the building. The carousel enclosure building went through several iterations to align with available costs and capital campaign efforts. The ultimate design features seven overhead glass doors that can function as an open-air structure but allow for panoramic views when closed. The building is roughly 86ft in diameter, allowing for plenty of gathering room around the perimeter of the carousel that also facilitates flexible event space. Adjacent to a city park and the Greensboro Science Center, the depiction of local history and educational opportunities were woven into the overall design.

CONGRATS

EMILY HINTON

AIA, **DBIA**, NCARB

Emily Hinton, AIA, DBIA, NCARB, principal of Lindsey Architecture, successfully completed the Design-Build Institute of America's (DBIA) comprehensive education and certification testing program to achieve the design-build industry's highest designation as a nationally certified Design-Build Professional®. Two to six years of substantial, documented direct project experiences in design-build project delivery experience is an additional prerequisite for Designated Design-Build Professional® certification.

GET THE PARTY STARTED

15th Anniversary Shenanigans

October 19, 2023 4-7pm

We have something special planned to celebrate 15 years of architectural impact. We hope you will celebrate with us, as you are a vital part of our success and our story. Didn't receive your invite and want to attend? Email tracey@lindseyarch.com.
